-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8, 10-12, and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Lindsay.

Lindsay discloses a self-metering automatic fire fighting nozzle comprising:

An additive passageway 33 in fluid communication with a fire fighting liquid conduit 83, a discharge orifice 17/23 varies in size with the supply pressure, structural elements 33/35/37/41/19 defining a variable opening associated with the additive passageway 33 that is automatically varied in response to variation in sizes of the discharge orifice, or a valve 33/35/37/41/19 associated with the additive passageway 33 that is automatically varied in response to variation in sizes of the discharge orifice, and a ratio selector 77 with at least two settings (see figure).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3752

4. Claims 9, and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lindsay in view of Steingass et al.

Lindsay teaches all the limitations of the claims except for a visible indicator of flow rate. However, Steingass discloses a fire-fighting nozzle with a visible indicator of flow rate 18 (see figure 1). Therefore, it would have been obvious to one having ordinary skill in the art to have provided the device of Lindsay with a flow rate visible indicator as suggested by Steingass et al. Doing so would provide a way to monitoring flow rates.

Response to Arguments

5. Applicant's arguments filed 12/12/05 have been fully considered but they are not persuasive.

6. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dinh Q. Nguyen whose telephone number is 571-272-4907. The examiner can normally be reached on Monday-Thursday 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Scherbel can be reached on 571-272-4919. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
